

**The Eight International Conference "Challenges in Higher Education and Research in the 21st Century" will take place in Sozopol (black sea Bulgaria), in 2-5 June 2010. (<http://elfe.tu-sofia.bg/cher21/>)**

In its scope we are organizing the Workshop: "The future internet: New opportunities for e-training in education and research"

([http://elfe.tu-sofia.bg/cher21/Workshop\\_callPapers.doc](http://elfe.tu-sofia.bg/cher21/Workshop_callPapers.doc)).

This workshop intends to be a forum of presentation of novel and innovative ideas to contribute for a wide discussion on new opportunities for e-training in education and research thought the vision of the future of internet. The audience of the workshop includes academics, researchers, and innovators engaged in applying e-training practices on the vision of the future of internet on education and research domains.

Papers selected to be presented in this workshop will be peer-reviewed using a double-blind review system and published in the conference proceedings book. Extended versions of the best papers may also be submitted, after the workshop, upon invitation to a special issue in a recognized

journal of the area. Formatting rules should be according to those described in the conference portal.
