

Dear,

Let me first introduce myself: I am Selahattin Kuru, President of Toros University, Mersin, Turkey. I am a professor of computer engineering, holding a PhD degree from Carnegie Mellon University.

Toros University is a newly established university to admit its first students in the 2010-2011 academic year. At this point I am recruiting faculty for the programs that we will start next fall.

We aim to build Toros University as high a quality World class university. In order for that we aim to recruit top notch faculty from all over the World. Please check our web site at www.toros.edu.tr for information on our university.

We need faculty who will share the enthusiasm and the joy of building a new university. I invite you to join us to share this experience with us.

Toros University is at Mersin, a major city on the Mediterranean coast of Turkey. Mersin is a port city, a touristic city, an industrial city, and a historical place. Toros University is a city university right at the center of the city. Mersin is a lovely city to live. It has mild climate, sunny throughout the year. It offers all modern services. It has a coast line of about 15 km and the city is spread along this coast line. It has parks, cafes, recreational areas, jogging and cycling lanes along this coast. It is not an expensive city. People of Mersin are nice, tolerant, respectful, who enjoy dining, chatting and life itself. Mersin is rich in cuisine, with both Southeastern Anatolian kitchen and seafood. Mersin is a historical city with many Roman, ancient Greek, Seljuk and Ottoman remains. Tarsus, a well known nearby town is home to early Christians, where Saint Paul lived. Mersin is the orange growing province of Turkey. It has the largest port and the largest free zone of the country.

We offer competitive salaries, housing compensation, meal card, and private group health insurance policy (on a shared cost basis).

I am in a hurry to finalize the contracts with the faculty I will recruit, because YOK, Council of Higher Education of Turkey, requires new universities to submit the list of faculty immediately.

I would like you to consider to join Toros seriously. If you are interested please send me your CV with a list of publications.

If you have any questions please send me an email or call me.

Loking forward to hearing from you very soon.

Best,

Selahattin Kuru, PhD
Professor and President

Toros University
