JUSTIFICATION

Directed by prof. Paulo de Barros Carvalho (Sao Paulo) and Gregorio Robles (Palma de Mallorca/Madrid). Since 2000 both professors are collaborating in a long-term research project on "Communication, Language and Law". Fruit of this research project has been till now several seminars and publications. Specially is hier to mention the following work: Gregorio Robles & Paulo de Barros Carvalho (Coord.), "Teoria Comunicacional do Direito: Diálogo entre Brasil e Espanha", Editora NOESES, Sao Paulo, 2011. This book contains 28 contributions, 15 of Brazilian authors and 13 of Spanish authors. The idea of having a SWS in the XXVI World Congress on the Communicational Theory of Law (CTL) has the goal of going on this project. The SWS would permit us to join some authors of the mentioned book and other scholars, which are interested in this theoretical perspective, as well.
